NOTICE TO REVIEWING OFFICERS

The attached galley proof is for publication about one year hence in a volume of the series "Foreign Relations of the United States". This series, which has been printed since 1861, originated as a documentary report by the President to the Congress. Publication of the series is now being expedited in response to instructions by President Nixon, as noted in the White House press releases (over).

In compiling these documents the Historical Office has condensed the record and eliminated passages that would give "needless offense to other nationalities or individuals" or 'that would violate "confidence reposed in the Department [of State] by individuals and by foreign governments" (2 FAM 1352). As a matter of courtesy all friendly foreign governments whose documents appear in these galleys are being asked for their permission to publish their respective documents. This permission is very seldom denied.

You are asked to review these documents in order to determine whether their publication would "impede current diplomatic negotiations or other business." Please bear in mind that the President has called for declassification of these materials "to the maximum extent consistent with the requirements of national security". In order to maintain President Nixon's schedule we need your clearance speedily and liberally -- in any case within two months.

THE WHITE HOUSE

MEMORANDUM FOR THE SECRETARY OF STATE

March 8, 1972

SUBJECT: Acceleration of Publication of "Foreign Relations" Series

The official documentary series "Foreign Relations of the United States," published by the Department of State, has for many years provided the American public with an indispensable perspective on our Nation's history. The materials now being published, however, relate to the events of 1946, and I think that in the interests of a better informed public the length of time between event and publication should be shortened. Accordingly, I ask that, without impairing the quality and comprehensive nature of the series, you immediately institute a program to reduce this time lag to 20 years. Your objective should be to make this reduction within the next 3 years and to keep the publication point at 20 years from then on.

In order to achieve this goal in the most expeditious manner, I am today instructing the Secretary of Defense, the Director of Central Intelligence, and the Assistant to the President for National Security Affairs to cooperate fully with you in collecting and declassifying the appropriate materials to the maximum extent consistent with the requirements of national security.

I ask that you cooperate fully with the Secretary of State to meet the above objectives in the most expeditious manner and to the maximum extent consistent with the requirements of national security.
